## WASHING SOLUTIONS

McCloskey Washing Systems (MWS) focuses on washing and classifying across multiple applications, designing and manufacturing a full range of mobile, modular and static material and mineral washing equipment.

While McCloskey International has been producing equipment for the quarrying, recycling, mining and industrial sand sectors for over 30 years, McCloskey Washing Systems provides 100% focus on the development of class-leading innovative and efficient equipment for washing and classifying material and mineral products.

The products produced by McCloskey Washing Systems deliver significant advantages to customers, including lower cost of ownership, lower cost of production, and making more projects viable for their business.

Visit [www.mccloskeywashing.com](http://www.mccloskeywashing.com) for detailed product information.

## PARTS, SERVICE & AFTER SALES

All McCloskey products are carefully designed by professional engineers, choosing quality components. We therefore recommend the use of genuine OEM McCloskey parts to maximize the performance of your machine.

At McCloskey International we understand the importance of delivering spares quickly and efficiently. We keep a wide range in stock, minimizing costly downtime.

The worldwide McCloskey dealer network stocks a wide range of parts to support your product locally, while the North American and European McCloskey facilities support users globally.
